15 in 100

A quick guide for Malaysian readers

Council Area

Area disadvantage

Developmentally ...

School advantage ...

Year 12

Low socio-economic ...

Part 1 : Before School

The gap opens before the first school day

In 2024, 23.5% of children .....

A record high

Poverty matters

Distance matters

Where disadvantage ...

Reading the map

The north and centre

Inside the big cities

Every council, ranked

Top of the list

Bottom of the list

Poorer neighbourhoods, more ....

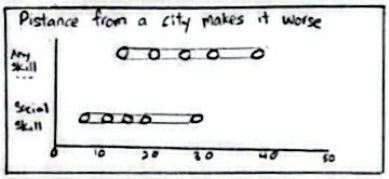

Small pattern, ...

Language shows ...

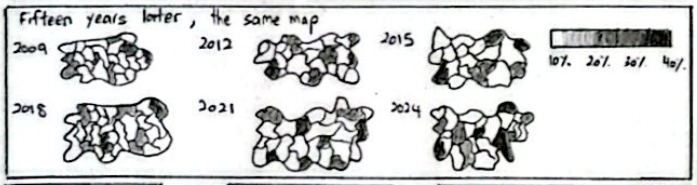

Further from the city

Distance from a city makes it worse

Very remote children

Fifteen years later, the same map

2009 to 2024

A stubborn pattern

Grey areas

Part 2: At School

Then they go to very different schools

Australia has 9,755 schools. ...

How to read it

Try it

What stands out

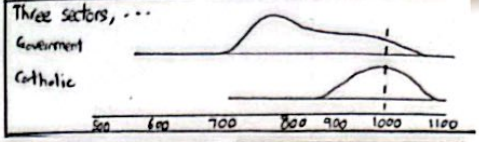

Every school in Australia

Three school sectors

Different student ...

Three sectors, ...

Who sits in the classroom

Family background of students

Government 63% of students	31%	26%	23%	20%
Catholic 19% of ...	16%	28%	30%	26%
Independent 18% of ...	11%	28%	41%	19%

Government is the giant,

Government schools

Independent schools

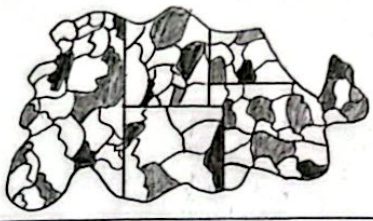

Four in Five

Part 3: Finishing School

Fewer young people finish school

Year 12 opens the door ....

Year 12 completion across the country

Greater Sydney

Greater Melbourne

Most advantaged ...

Most disadvantaged ..

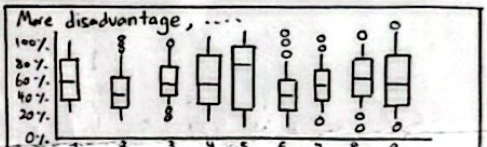

Inside the cities

A clear trend

The widest spread

Above the trend

More disadvantage, ...

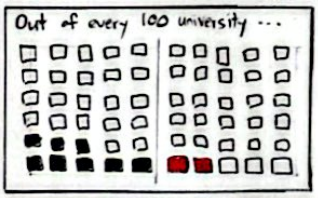

Part 4 : University

And fewer make it to university

A fair share would be 25 in 100 ...

Out of every 100 university ...

Low socio-economic areas

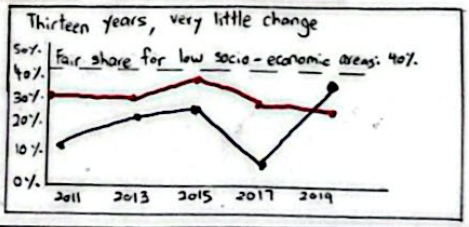

First Nations students

Little change ...

Regional students

Remote students

Thirteen years, very little change

Part 5 : What It Means

One story, told four times

Before school

At school

Finishing school

University

Each stage builds on the one before. Help
